## FVO - Food and Veterinary Office

### Programme of Audits 2013

Since the entry into force of Reg. (EC) No 882/2004 (on official controls), the FVO assesses Member States' Annual Reports on the implementation of their Multi-Annual National Control Plans and provides feedback to Member States, aimed at improving the quality of these reports. A new series of Systems Audits is being introduced with the purpose of focusing on selected horizontal elements of Reg. (EC) No 882/2004, e.g. verification procedures and enforcement, to identify good practice as well as difficulties encountered with implementation. Furthermore, following on from the lessons learnt from the *E. coli* outbreak in Germany in 2011, the FVO will start a new series on emergency preparedness in 2013. Amongst others, it will address contingency planning in the feed and food chain, co-ordination and co-operation between different authorities including public health authorities, traceability of feed and food, alert systems and recall procedures.

### FVO - Country Profiles (2012)

FVO works to assure effective control systems and to evaluate compliance with EU standards in the areas of food and feed safety, animal health, animal welfare and plant health. It does this mainly by carrying out inspections and audits in Member States. Here are the 2012 country profiles.

### **About FAMI-QS**

FAMI-QS Asbl is the management and coordination center for the FAMI-QS code of practice. It is the only certifiable code specifically aimed at Specialty Feed Ingredients and Their Mixtures (feed additives, functional feed ingredients, premixtures, specialty complementary feed, specialty complementary dietetic feed) for animal nutrition. The code addresses safety, quality and regulatory compliance in order to minimize the risk that unsafe specialty feed ingredients enter the food and feed chain. It offers independent certification for all operators placing these products on the market. Based on partnership with international certification bodies and third countries institutional partners, it includes more than 750 certified sites spread across more than 49 countries. The current FAMI-QS President is Dr. Dieter Greissing of *Evonik Industries AG*.
