

## The Information You Need from the Experts You Trust

### FAMI-QS Awareness in Feed Safety Program: Solutions for the Specialty Feed and Mixture Industry September 25 and 26, 2012, Rosemont, Illinois

Trainers: Daniel Uthe, Eurofins Food Safety Systems  
Keith Epperson, American Feed Industry Association

In the current feed industry, the task of understanding and keeping up with new regulatory requirements can be challenging. In response to emerging issues related to feed safety, Eurofins and AFIA are hosting a workshop titled, "FAMI-QS Awareness in Feed Safety." This interactive, comprehensive training covers the regulations of the FAMI-QS program in an easy-to-understand format that will help you and your company achieve certification.

The FAMI-QS certification program is benchmarked against European Commission Feed regulations and allows for exporters and importers to gain entry to new international markets with greater ease and success. This 2-day workshop covers the following topics:

- Background of FAMI-QS
- Global importance of FAMI-QS
- Overview of Scope
- EU regulations and compliance
- Feed Safety Management
- Implementing the FAMI-QS Code
- FAMI-QS Awareness Resources
- Crisis Management and Planning an Audit

This event promises to offer useful information that will immediately impact decision making in day-to-day operations.
