

## FAMI-QS Connect

FAMI-QS is pleased to announce the launch of FAMI-QS Connect. FAMI-QS Connect is a new platform designed exclusively for FAMI-QS Certified Organisations and stakeholders.

Through this new platform FAMI-QS will offer a range of workshops and training sessions on topics that are challenging or have a broader interest for the sector of Specialty Feed Ingredients and their Mixtures. The FAMI-QS Connect sessions will cover topics, among others, relating to quality, safety, regulatory, supply chain, risk management, excellence and feed fraud. Workshops will be organised worldwide or online, focusing each time on the specific needs of each region.

During the FAMI-QS Connect sessions, participants will actively join the discussion and exchange their experience and views on the addressed topics.

Furthermore, FAMI-QS Connect will offer the possibility to those who have already attended a FAMI-QS training to share their experience and elaborate further on specific topics/questions, further supporting your work to meet the requirements. The session will be provided online and free of charge, following a survey among the participants from previous FAMI-QS trainings. Each of these sessions will be coordinated by a dedicated trainer. A first survey will be launched in the month of June.
