FAMI-QS Feed Fraud and Defence Templates

As you have been informed from our previous newsletter issued in April 2021, the FAMI-QS Feed Fraud Prevention and Defence templates have been redesigned and are now available on our website at <https://fami-qs.org/feed-fraud-prevention-and-defence-module.html>.

For the redesign, all the feedback we received during the past year within and after our FAMI-QS Feed Fraud Prevention and Defence Module trainings was taken into consideration.

The new versions have been adjusted in such way to provide a more functional and user-friendly interface allowing the user more freedom to modify the height and width of rows and columns as necessary.

Navigation has been made more intuitive and a more detailed guidance is provided as to how to use the files in order to create a report.

The wording remains the same with some minor adjustments to improve legibility of the information content.

Scope

The Feed Fraud Prevention and Defence Module requires operators seeking certification to FAMI-QS to apply the scope as defined for the FAMI-QS 6.0 Certification. The Certification Body should place particular focus on the specific requirements on defining the scope for feed fraud prevention and defence, as defined in sections 6.1.2. and 7.1.2 of the Feed Fraud Prevention and Defence Module.

Due to the nature of the topic, the FAMI-QS Certified Organisation shall review the suitability of their current assessment on an annual basis in the framework of their actions for continuous improvement. The annual review does not indicate that an update of assessments is required.

Audit Duration

For the initial assessment of the implementation of the FAMI-QS Feed Fraud Prevention and Defence Module, the Certification Body shall allocate (as a minimum) 0.5 man-days as an add-on to the auditing time already allocated. For the subsequent surveillance audits, the necessary additional audit time will be defined by the Certification Body.

Compliance dates

All current FAMI-QS Certified Organisations shall complete the implementation of the module by the **1st of September 2022**. As from the 2nd of September 2022, all audits shall include the audit of the FAMI-QS Feed Fraud and Defence Module in their audit plan.
